EDUCATION

Master of Computer Application

Shri G. S. Institute of Technology and Science
8.15 CGPA

2023 – 2025
Indore, India

Bachelor of Computer Application

Bhopal School of Social Sciences
75.15%

2020 – 2023
Bhopal, India

10th and 12th

Vindhyachal Academy CBSE Affiliated

2018 – 2020
Bhopal, India

PROFESSIONAL EXPERIENCE

Technology & Product Development

Scalixity [🔗](#)

11/2025 – Present
Remote

- Developed and maintained **responsive UI components** using modern frontend frameworks.
- Optimized **UI performance, accessibility, and cross-browser compatibility**.
- Collaborated with backend and design teams to deliver **scalable user-facing features**.

Development Intern

Scalixity [🔗](#)

06/2025 – 11/2025
Remote, India

- Developed responsive, reusable frontend UI components using **React** and **Next.js**, translating designs into clean, accessible interfaces.
- Integrated frontend components with backend services by consuming **RESTful APIs** and managing **application state** and data flow.
- Performed testing, debugging, and **performance optimization** to improve load times, responsiveness, and **cross-browser compatibility**.

PROJECTS

Aaj Kya Banega? – AI-Powered Meal Planning & Decision Platform [🔗](#)

Tech Stack : Next.js, TypeScript, NeonDB, Gemini AI

- Built an **AI-powered** meal planning platform for flatmates and households to collaboratively decide daily meals.
- Implemented **AI meal recommendations** based on ingredient availability, user preferences, and meal history.
- Developed **real-time group voting**, pantry management, meal tracking, and grocery list generation features.
- Designed a responsive **full-stack** application using **Next.js**, PostgreSQL, and **Tailwind CSS**.
- Designed and deployed a responsive **full-stack** application on **Vercel** using **Next.js**, PostgreSQL, and **Tailwind CSS**.

Procurement Workspace — End-to-End RFQ & Purchase Order Automation Platform [🔗](#)

Next.js 16, TypeScript, PostgreSQL (Neon), Drizzle ORM, Auth.js, Tailwind CSS, ExcelJS, Zod, Vercel

- Built a procurement platform using **Next.js 16** and **TypeScript** with vendor quote comparison, **L1/L2/L3 ranking**, and lowest-cost highlighting.
- Developed a custom **Tailwind CSS** design system with light/dark mode, validated forms, and Excel paste-import functionality.
- Engineered a **cost-comparison engine** for landed cost analysis and a synonym-aware vendor search using **Jaccard similarity scoring**.
- Designed a **multi-tenant PostgreSQL** database with **Drizzle ORM**, **Auth.js** authentication, and **role-based access control**.
- Integrated vendor discovery APIs and automated **Excel PO generation**, deploying on **Vercel**.

SKILLS

Programming languages

Python

Web Development

React.js, Vite, Next.js, Vercel, Netlify

Database Skills

SQL, NeonDB

Soft Skills

Effective communication, Adaptability, Problem Solving, Team Collaboration
